

What's New in TRIMS 19?

Available April 2019

Automatic Backup to TRIMS File Server

We are pleased to offer TRIMS Automatic Backups to the TRIMS File Server to keep your day moving along. No more waiting at your desk for TRIMS to make a backup. Set the TRIMS Backup Configuration "ONCE" and let TRIMS do the rest for you. An email confirmation of the backup will also be sent to you.

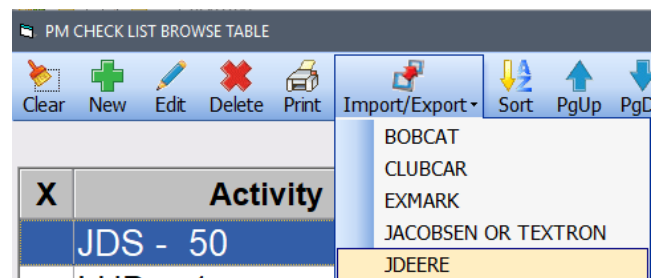

Equipment & Property Browse Table

A maroon **P** will be displayed in the PM column if a maintenance event exists.

Property No.	Equipment Description	Group	PM	Hrs/Mi
10907A	TRENCH MASTER	MACH	S	
BUN-14	BUNKER 14 RECONSTRUCTION	GRNDS		
G-1	GREEN #1	GRNDS		
H-100	WEED MASTER		S	
I-100	IRRIGATION SYSTEM	IRRIG		
M-100	MOW MASTER	MACH	P	
M-200	TRIPLEX MOWER	MACH	P	
PARK-001	JOHNSON PARK	JPK		

PM Check List Browse Table

Locating a PM Checklist/Schedule is easier than ever before. Instead of searching for the import file, TRIMS will locate the file for you once a Manufacturer is selected.

Update White Board without Cloud Server turned on

An **UPLOAD** tool has been added to the White Board Edit Screen to allow uploading/updating the White Board without the TRIMS Cloud Server being active.
