Automatic Backup to TRIMS File Server

We are pleased to offer TRIMS Automatic Backups to the TRIMS File Server to keep your day moving along. No more waiting at your desk for TRIMS to make a backup. Set the TRIMS Backup Configuration "ONCE" and let TRIMS do the rest for you. An email confirmation of the backup will also be sent to you.

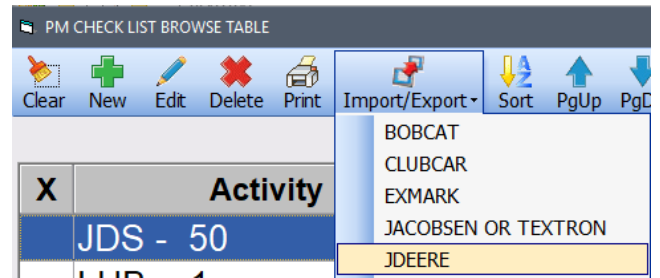

Equipment & Property Browse Table

A maroon **P** will be displayed in the PM column if a maintenance event exists.

Property No.	Equipment Description	Group	PM	Hrs/Mi

PM Check List Browse Table

Locating a PM Checklist/Schedule is easier than ever before. Instead of searching for the import file, TRIMS will locate the file for you once a Manufacturer is selected.

Email Function Changes

Email function has been changed throughout TRIMS to use the Local Mail Client rather than MS Outlook. Copy of email will also be sent to the the Sender.

Update White Board without Cloud Server turned on

An **UPLOAD** tool has been added to the White Board Edit Screen to allow uploading/updating the White Board without the TRIMS Cloud Server being active.

White Board “Days of the Week” repeat option

Select SPECIFIC days of the week for repeating Work Activities by placing a check mark.
